

Welcome to Pickens High School

Career, Technical, and Agricultural Education Division

I look forward to serving our students and teachers as the CTAE Director and Assistant Principal. My educational experience includes working as a Director of Economic Development at Chattahoochee Technical College, State CTAE Liaison at the Georgia Department of Education, District Director of Personnel for Pickens County Schools, and instructor of Business for DeVry University. In addition, I have over twenty years of experience in the business world.

I received my Bachelor of Business Administration from Northwood University, Master of Business Administration from American Public University, and Education Specialist in Leadership from the University of Georgia.

I am excited about building relationships with business and industry as we provide relevant career education in our school. I want our teachers to provide experiences that will prepare our students for success, no matter what route they decide to take.
