Updated Access Plan Statement

“A PHS employee who worked on campus last week reported flu-like symptoms to me on Saturday. After consultation with our superintendent and health services director, I feel it best as a precautionary measure to further restrict the number of people entering the building while it is being properly cleaned.”

–Chris Wallace, Principal

To take proper precautions and to deep clean, our campus will be closed to all employees and visitors Monday, March 23rd.

Our campus access plan is currently under review. Any changes made to this plan will be communicated once determined.
